

CORNERSTONE

Building Blocks

Product Control

Product Control, or package handling, directly affects checkweigher performance. The Cornerstone checkweigher offers pre-engineered modular solutions to simplify product control.

■ Transfer Plates and Rollers

- For smooth transitions from infeed and discharge conveyors
- For short length packages

■ Side Transport Belts

- Handle tall, unstable products

■ Flexible Conveyor Positioning

- Helps fill "the gap" in the packaging line

■ Rejected Product Transfer Plates

- Gets the product cleanly off of the checkweigher
