

CORNERSTONE

Building Blocks

Easy Product Changeover

Cornerstone offers easy product changeover whether you're changing package sizes during the shift or retooling the packaging line.

■ Quick Product Changes

- Simple calibration, checkweigher speed settings, and statistics setup through the control
- Quick adjust guide rails
- Adjustable rejector placement

■ New Product Changeover

- Weighbelt Module Changeout: Uses patented* Spine interface system
- Simple adjustable chain scale centers and lengths
- Side rail adjustable photoeye, rejector, and transfer options

■ System Flexibility Reduces Customer Risk

- The flexibility to adapt a system to new applications protects the customer's investment
- Mix and match components between systems

*Patent Pending
